

### **Pulmonx Reports First Quarter 2022 Financial Results**

May 3, 2022

REDWOOD CITY, Calif., May 03, 2022 (GLOBE NEWSWIRE) -- Pulmonx Corporation (Nasdaq: LUNG) ("Pulmonx" or the "Company"), a global leader in minimally invasive treatments for lung disease, today reported financial results for the first quarter ended March 31, 2022.

#### **Recent Highlights**

- Recorded worldwide revenue of \$10.8 million in the first quarter of 2022, a 17% increase over the same period last year and an increase of 20% on a constant currency basis
- Realized gross margin of 75% in the first quarter of 2022 as compared to 72% in the same period last year
- Added 16 new U.S. treatment centers for Zephyr Valves in the first quarter 2022, increasing total U.S. treatment centers to 230

"We are encouraged by our first quarter performance as we benefited from a strong recovery in procedure volumes and account activity in the back half of the period," said Glen French, President & Chief Executive Officer. "This recovery and the underlying demand for our Zephyr Valve treatment leave us confident in our team's ability to achieve our year-end goals."

#### First Quarter 2022 Financial Results

Total worldwide revenue in the first quarter of 2022 was \$10.8 million, a 17% increase from \$9.2 million in the first quarter of 2021 and an increase of 20% on a constant currency basis. U.S. revenue was \$6.0 million, a 40% increase from the first quarter of 2021. International revenue was \$4.8 million, a 4% decrease compared to the first quarter of 2021, and a 3% increase on a constant currency basis. The increase in U.S. revenue reflects continued commercial momentum and growth of Zephyr Valve procedure volumes, while the change in international revenue reflects headwinds from COVID and foreign currency exchange rates.

Gross profit in the first quarter of 2022 was \$8.1 million, compared to \$6.6 million for the first quarter of 2021. Gross margin for the first quarter of 2022 was 75%, up from 72% for the same period in 2021. The improvement in gross margin reflects benefits from production efficiencies.

Operating expenses in the first quarter of 2022 were \$23.8 million, compared to \$19.1 million for the first quarter of 2021, representing an increase of 24%. The increase in operating expenses was driven primarily by investments in our commercial and research and development functions, stock-based compensation, and expenses associated with the scaling of our general and administrative infrastructure.

Net loss in the first quarter of 2022 was \$15.8 million, or \$0.43 per share, compared to a net loss of \$12.5 million, or \$0.35 per share, for the same period in 2021.

Cash, cash equivalents, and marketable securities totaled \$176.5 million as of March 31, 2022.

#### 2022 Financial Outlook

Pulmonx continues to expect revenue for the full year 2022 to be in the range of \$55 million to \$60 million.

The Company also continues to expect total operating expenses for the full year 2022 to fall within the range of \$100 million to \$105 million inclusive of stock-based compensation.

#### **Use of Non-GAAP Financial Measures**

Pulmonx has presented constant currency percentage change in revenues, a non-GAAP financial measure, in this press release. Constant currency calculations show reported current period revenues as if the foreign exchange rates remain the same as those in effect in the comparable prior year period. Pulmonx uses results on a constant currency basis as one measure to evaluate its performance. Pulmonx calculates constant currency by calculating current-year results using foreign currency exchange rates from the applicable comparable period in the prior year. Pulmonx generally refers to such amounts calculated on a constant currency basis as excluding the impact of foreign exchange or being on a constant currency basis. Reconciliation of this non-GAAP financial measure to the most comparable GAAP measure is set forth in the tables below.

Pulmonx believes the presentation of results on a constant currency basis in addition to reported results helps improve investors' ability to understand its operating results and evaluate its performance in comparison to prior periods. Pulmonx generally uses constant currency to facilitate management's financial and operational decision-making, including evaluation of Pulmonx's historical operating results. Non-GAAP financial measures reflect an additional way of viewing aspects of the Company's operations that, when viewed with GAAP results, may provide a more complete understanding of factors and trends affecting Pulmonx's business.

This non-GAAP financial measure should be considered supplemental to, and not a substitute for, financial information prepared in accordance with

GAAP. Because non-GAAP financial measures exclude the effect of items that increase or decrease the company's reported results of operations, management strongly encourages investors to review, when they become available, the Company's consolidated financial statements and publicly filed reports in their entirety. The Company's definition of non-GAAP measures may differ from similarly titled measures used by others.
